**DETAILED ACTION**

***Response to Amendment***

1. The amendment filed 12/24/2008 for Application No. 10/549901 has been entered and fully considered.
2. Claims 1-20 are currently pending and have been fully considered.
3. The 35 U.S.C. 103(a) rejections of claims 1-16 presented in the office action dated 10/1/2008 are withdrawn. Claims 1-20 are now in condition for allowance.

***Allowable Subject Matter***

4. The following is an examiner's statement of reasons for allowance:

Claims 1-20 are now in condition for allowance because the MORIYA et al. (US 2003/0031890) and NOZAWA et al. (US 2002/0061452) references do not teach the limitations of amended independent claims 1 and 9 pertaining to a reticle substrate comprising an end shape composed of a flatness measuring area on a main surface, a chamfered surface, and an intermediate area which is placed between the flatness measuring area and the chamfered surface and which has a width of 3 mm inwardly from a boundary between the chamfered surface and a main surface. Claims 1 and 9 have been amended to recite that the intermediate area between the flatness measuring area and the chamfered surface is lowered or declined from the flatness measuring area towards the chamfered surface. Support for these amendments is found in Figure 3 of the Applicant's disclosure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
